Sprint 3 User Stories:

1. As a visitor, I can view the Smart School landing page so that I can understand the platform and its core modules.
2. As a visitor, I can see Login and Register actions in the navbar so that I can access account-related pages from anywhere.
3. As a visitor, I can open a login page so that I can view the sign-in form for students, teachers, or administrators.
4. As a visitor, I can open a registration page so that I can view an account creation form for different school roles.
5. As a teacher, I can open my dashboard so that I can see my class, daily stats, schedule, tasks, and school notices.
6. As a teacher, I can open the attendance page so that I can view the student list for my class by date and subject.
7. As a teacher, I can submit attendance so that student attendance records are saved or updated in the database.
8. As a student, I can open my dashboard so that I can see my class details, roll number, stats, schedule, assignments, and notices.
9. As a student, I can open my attendance page so that I can view my attendance history.
